

Upgraded living comes standard with

harmactive[®]

Live a smarter life[📶] with Harmac Homes.

Get smart with these standard inclusions and future proof your new home.

1 x Wiser Double Power Point

The Clipsal Double Connected Smart Power Point gives you app controlled switching with The Wiser by SE App. Set schedules and timers for devices and appliances using each power outlet and enjoy energy savings and security.

1 x Wiser Dimming Module for Lights

Set the mood with the push of a button, or lower the lights for when you don't want to wake the household with the Wiser Module Smart Dimmer. Combining smart dimmer functionality with bell press push-button switches, the Wiser Module Smart Dimmer transforms a conventional push-button switch into a connected device you control through The Wiser by SE App.

1 x USB Double Power Point to Kitchen Bench 2 x USB Double Power Points to each side of Bed in Master Bedroom

This Clipsal Double Power Point with twin dual A Type USB Charger combines modern conveniences and contemporary style, perfect for charging devices and more. Interchangeable skins allow for a custom and versatile look.

1 x Wiser Blind Control and Blockout Roller Blinds

Close the blinds at the push of a button for greater privacy and security or program your blinds to rise with the morning sun! The Wiser Module Smart Blind Controller provides smart control of 240V twin active blinds and shutter motors. It transforms a conventional double push-button switch into a connected device you can control from the switch or through The Wiser by SE App.

*(Included in either the front Master Bedroom or front Living, depending on the floorplan)**

1 x Wiser Outdoor Camera (installed to Porch)

Boost your security with the Wiser Outdoor Camera. Monitor your home via smartphone with camera view and notifications and communicate with visitors through the integrated microphone and loudspeaker.

1 x Wiser Indoor Camera (portable)

Monitor the kids from another room (or your pet remotely) with the Wiser Indoor Camera. The microphone and loudspeaker works as an intercom (perfect for calling the family to dinner), while the pan and tilt feature allows for a 360 degree view.

All Harmac Homes now include a smart home technology package that will transform the way you live. Secure, comfortable, convenient and energy efficient.

Prepare your home while you're out and about by automating blinds to provide privacy and security. Or turn on a lamp or light before your arrival - the convenience of technology is a luxury that dream homes are made of.

Partnering with Clipsal by Schneider Electric, Harmac Homes has introduced the luxury of smart living to our standard list of inclusions. A collection of Wiser Smart Home products have been carefully selected to create our Harmactive Smart Home Package. Wired into your new home, Wiser products will be seamlessly integrated into your family's everyday life.

Designed as a modular system, you can add more smart home functions to suit your way of living. Automate as many functions as you wish, all in one room or throughout the entire home. Be the envy of friends and family as you show off a home you can be proud of! Best of all, your energy efficient home will save you money. Keep all your appliances on when you need them and switch them off remotely with the convenience of an app when you don't.

Harmactive will lift your home to the next level and add comfort, security and value.
